EXPERIENCE

UX/UI Design Intern

Dec 2024 – Feb 2025

Rajang Digital Solution

Kuching, Malaysia

- Led the end-to-end design of six B2B web and mobile applications, introducing structured workflows that improved efficiency and quality of deliverables.
- Digitised 100% manual workflows for on-site workers and admin teams, reducing reporting errors and turnaround times by 40% while improving efficiency in day-to-day operations
- Raised design maturity within the team by introducing structured design processes adapted to a fast-paced agency environment, improving delivery quality and boosting client satisfaction scores.

Product Design Intern (UX/UI)

July 2024 – Present

MentorAll - Early-stage startup internship

Sydney, Australia

- Contributed to the design of MentorAll's first MVP by creating user flows, wireframes, and early prototypes for mentor and mentee onboarding, matching, and booking experiences.
- Collaborated cross-functionally to translate insights into actionable UI improvements for the MVP.
- Led a co-design workshop to explore future app directions and prioritise speculative features with the core team.

Industry Events Team Member

Apr 2017 – Present

Sydney University Experience Designers (SUEDE)

Sydney, Australia

- Worked with Atlassian, Microsoft, IBM and other partners to plan and deliver industry events for 100+ students.
- Secured new industry partnerships through outreach and professional networking, helping expand SUEDE's industry presence.

Retail & Hospitality Casual Team Member

Sep 2023 – Feb 2025

University of Sydney Union (USU)

Sydney, Australia

- Delivered customer service in high-volume retail and hospitality settings, balancing multiple priorities and ensuring smooth operations.

PROJECTS

Herculabs - Olympic Simulator Booth | UX Researcher, Visual Design Lead

Aug 2024 – Nov 2024

- Designed and tested a multi-touchpoint VR fan experience (kiosks, VR gameplay, photo booth), improving usability for first-time VR users through tutorials, progress indicators, and error recovery.
- Extended engagement beyond the booth by integrating omnichannel touchpoints, enabling fans to capture, share, and relive their Olympic moments year-round.

Rajang Website Revamp | UX Designer, FrontEnd Engineer

Aug 2024 – Nov 2024

- Redesigned and relaunched Rajang's corporate website, introducing SEO-driven content hierarchy, clear CTAs, and modern interaction design that improved engagement by 25%.

EDUCATION

University of Sydney

Sydney, Australia

Bachelor of Design (Interaction Design)

2023 - 2026

- 87.1 WAM

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, React

Design Tools: Figma, Adobe Suite
